S-116255	RefDB AWS SDK upgrade 1.x -> 2.x
S-116257	RefDB Upgrade java to amazoncorretto:17

1.2 Modifications

1.2.A S-116225 - Runway Average Information Display

On Dashboard, the function Runway Average is improved to make it work correctly and display average runway condition when there is enough data for the evaluation.

1.2.B S-115707 - Change NavBlue to Skywise logo

The logo of Navblue on the user interface is replaced with the Skywise logo.

1.2.C S-116253 - ACARS AWS SDK upgrade 1.x -> 2.x

This is a technical upgrade concerning **ACARS AWS SDK** due to the fact that the AWS SDK for Java 1.x reached end of support on December 31, 2025. A migration to AWS SDK for Java 2.x for continued security updates and improved capabilities was done.

1.2.D S-116254 - RSA AWS SDK upgrade 1.x -> 2.x

This is a technical upgrade concerning **RSA AWS SDK** because the AWS SDK for Java 1.x reached end of support on Dec 31, 2025. A migration to AWS SDK for Java 2.x to ensure continued security updates and improved capabilities was done.

1.2.E S-116255 - RefDB AWS SDK upgrade 1.x -> 2.x

This is a technical upgrade concerning **Reference DB AWS SDK** because the AWS SDK for Java 1.x reached end of support on Dec 31, 2025. A migration to AWS SDK for Java 2.x to ensure continued security updates and improved capabilities was done.

1.2.F S-116257 - RefDB Upgrade java to amazoncorretto:17

This is a technical upgrade concerning ReferenceDB. It still had ECS tasks and LAMBDA's with java version 8. It is now upgraded to java version 17; as well as all relevant libraries and dependencies.
